Welcome to Falcons

Welcome back everyone. We hope you've all had an enjoyable Half Term break. It is hard to believe that we are already beginning Term 2. We are so proud of the way that Falcons settled into the role of Year 6 and their determination to work with us to make it a truly successful year.

This term will be an obviously busy one as we balance the excitement of the Christmas run-up with the continuing demands of the Year 6 programme. We look forward to your continued support in balancing the fun and the learning. Here is a brief overview of our Term 2 learning.

English: We will be using 'Ice Trap' as the anchor text, linking to our Curious Curriculum theme, we will produce a polished dialogue scene demonstrating mastery of speech punctuation and narrative balance to convey character and advance the action.

Please contact us through Seesaw in the class messages.

Curious Curriculum

In Term 2, our 'Exploration' topic will be combining learning in Science and Geography as we explore the overarching question: 'How has exploration affected our understanding of the world today?'

In answering the enquiry question: 'What does it mean to explore?' we will begin with the science question: 'How have living things adapted to their environment?'

This will open a fascinating exploration of Charles Darwin's journey to the Galapagos Islands aboard 'The Beagle', whilst our geographical investigation will follow Shackleton's journey across Antarctica on 'The Endurance'.

Finally, we will debate the question: 'Who was the most successful explorer, Shackleton or Darwin?'

PE Days are on Wednesday (outdoors) and Friday (indoors).

If you have any skills, experiences or knowledge linked to our curriculum and would like to help enrich our provision, please do contact us — we would love to work with you.

Best wishes,

Mrs Burki and Mrs Robertson
